

Astronaut Food and CPR:
How Students Found Their Future Paths

Michelle Oja
Education Specialist,
Office of Special Education

A Little About Me

Astronaut Food?

Meet Alisia

- Alisia wants to be an astronaut
- While in high school, she took technology classes, engineering classes, and STEM classes in order to be able to accomplish her goal
- She did a research project where she brought in astronaut food for her classmates to try

Gymnast to teaching CPR

Meet Jordan

- Jordan struggled in school; he did not graduate
- He really wanted to go to the Olympics when he was a freshman
- What's he up to today?

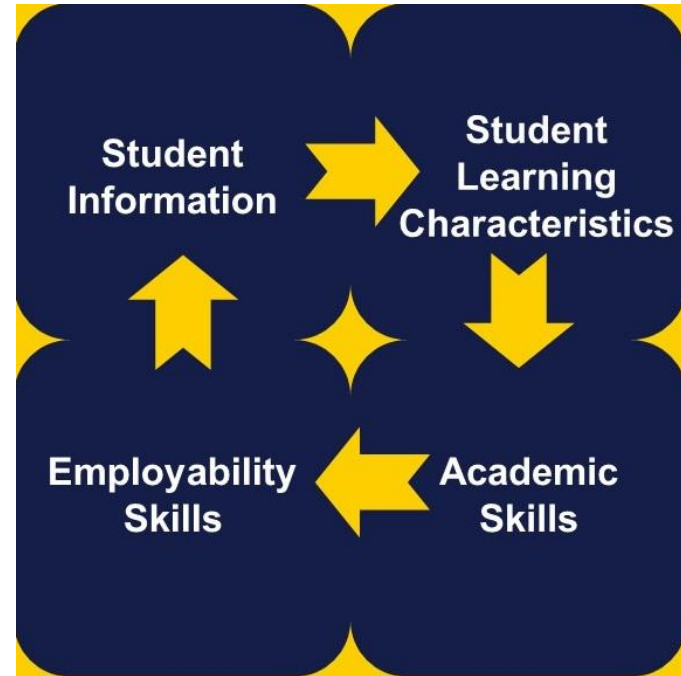

Why Transition Portfolios?

- Students can show what they know
- Able to demonstrate growth over time
- Able to show their skills and interests

Transition Portfolio Guidelines

- Four Components
 - Student Information
 - Student Learning Characteristics
 - Academic Skills
 - Employability Skills
- Portfolios are being created digitally
 - Indiana Career Explorer
 - Google Sites Template

The Guidance Document

Created By:
The Office of Special Education

- It's a live document!
- Based on information and guidance from a stakeholder group of colleagues from around the state
