	The structure of the above class is flipped relative to that of a traditional class. There will be one interactive online class meeting per week. Before each class, students will view recorded lecture videos, complete lecture quizzes, read the textbook and work on textbook-related online activities. Weekly class time is used for collaborative, active, and inquiry-based activities designed to deepen understanding of course topics and to provide practice in disciplinary thinking (e.g., visualizing biological processes, making predictions, drawing conclusions from data, and reading and analyzing scientific publications).

BIOL-L 211 MOLECULAR BIOLOGY (3 CR)									

This course is designed to be blended/flipped format relative to a traditional class. Students are expected to invest time outside of class to complete all of the recorded lecture videos, textbook and other assigned readings lecture quizzes and weekly assignments. Class time is used in a variety of ways including "bench to bedside" lectures, practice in inquiry based activities, but are NOT substitutes for out of class reading. There is an increased emphasis on learning how to read scientific literature, communicate science for a general audience through creative assignment, technical writing and designing and interpreting experiments

Student must be pursuing the major or certificate in Clinical Psychology Science. For students planning to enroll in X476 Practicum in Psychology, this course should be taken before or concurrently with their practicum experience. This course is specifically designed for students interested in completing clinically related practicum, internship, or research experiences during their undergraduate tenure OR students interested in a career related to the treatment or assessment of mental health conditions. Students pursuing the major or certificate in Clinical Psychology Science who have successfully completed P318 do NOT need to request permission. If you are NOT pursuing the Clinical Psychology Science major or certificate OR have not successfully completed P318, email psyneuro@indiana.edu for permission to add this course. You will receive permission if you meet one of these criteria: 1) you have been accepted into PSY-X476 during the semester you intended to register for the course, (OR) 2) you have spoken with the instructor and received permission.

This course is designed to analyze and investigate sustainability reporting topics, including environmental, social, and governance through multiple stakeholder lenses, including present and potential investors, managers, the media, consumers, and jurisdictions. We will explore sustainability reporting as it relates to traditional financial reporting, analyze regulatory requirements around the world, and investigate stakeholder roles in sustainability reporting. To accomplish these goals, we will investigate current and proposed sustainability standards at the general and industry-specific level and evaluate multinational companies sustainability reports.

34342	ARR	ARR	WB WEB	Haus K	28	26	0
-------	-----	-----	--------	--------	----	----	---

What can we learn from TikTok, advertisements, and movies?
More broadly, how does the media depict race, gender, class, and sexuality as well as the intersection of these identities? In this course, you will learn how to creatively analyze and critique messages of power, knowledge, and social structures in media. You will also use innovative methods, such as poetry, photography, and collage to explore your identities and challenge taken-for-granted messages about race, gender, class, and sexuality

--	------	--	-----------------	---	---------	----------	----	----	---

Above class is part of the School of Education's Professional Distinction Series
 Using the tools of neuroscience, awareness, and emotional intelligence, this course provides evidence-based practices for beginning teachers growth and development. This course is a rich, intense and highly interactive experience. It makes deep and complex concepts highly practical and accessible. And the course emphasizes application to each participant's real personal and professional challenges
 Above class meets second eight weeks only

--	-------	--	-----------------	---	---------	----------	----	---	---

TOPIC : Mind-Body Skills Group
 In a highly interactive, small-group setting, explore and practice evidence-based mind-body techniques useful for intentionally connecting with your mind and body; regulating your autonomic nervous system(responsible for the "fight or flight" response); and tapping into your internal wisdom. Skills we will explore include: meditation (concentrative, expressive, and mindfulness), visualization, imagery, body scans, and more. No experience with the use of these skills is necessary. Come as you are, ready to learn about how these skills can be a valuable component of your personal wellness and self-care hygiene routine.
 Above class meets first eight weeks only

--	-------	--	-----	--	--------	----------	----	---	---

Above class is part of the School of Education's Professional Distinction Series
 Above class requires mandatory participation in 4-5 in-person workshops
 This course is designed to assist the transformation from student to teacher. It allows students to delve more deeply into areas of interest by attending workshops and events in the School of Education; often these experiences include learning from alumni teachers, principals, and other administrators who are currently in the field. Taken entirely at the student's pace, the class includes attendance at live School of Education professional development events (either in-person or on Zoom) followed by reflective writing submitted via Canvas

------	-------	--	-----	--	--------	---------	----	---	---

Above class meets first eight weeks only
 Above class is part of the School of Education's Professional Distinction Series

In this course, students will begin to explore the personal, institutional, political, and cultural forces that impact the lived experience of being a professional teacher. Possible key questions for reflection include: How does self-knowledge help teachers positively shape their professional lives? How does school culture shape the day-to-day life of teachers and how do you identify a school culture that is right for you? How does the current emphasis on standardized testing impact the life of a teacher and how can teachers positively respond to this? What does it mean to be a role model and what are the challenges and opportunities presented by this social role? What does community mean and how are teachers participants in and facilitators of positive community? Exploration of these questions will occur through student centered, hands-on, and interactive classroom activities

 Above class for Exploratory freshmen in University Division
 In this small class, we will build a warm, supportive learning community where you will discover more about who you are and what you want as you connect with how to seek meaning and purpose in your education. As we continue our work together, you will make new friends and learn how to build strong relationships with your own personal support team of academic advisors, career coaches, professors, and many other helpers and guides on campus. You will also learn new ways to upgrade your skills to deepen your learning and meet the challenges of college academic work. Finally, throughout our travels on this road, we will engage in rich conversations and equip you with useful tools on the journey as you figure out how to make important decisions about classes, majors, and how those choices can connect to a life of fulfilling work, service to others, continued learning, and joy
 Above class meets for the thirteen week session

P : University Division Students
 Above class for Exploratory freshmen in University Division
 In this small class, we will build a warm, supportive learning community where you will discover more about who you are and what you want as you connect with how to seek meaning and purpose in your education. As we continue our work together, you will make new friends and learn how to build strong relationships with your own personal support team of academic advisors, career coaches, professors, and many other helpers and guides on campus. You will also learn new ways to upgrade your skills to deepen your learning and meet the challenges of college academic work. Finally, throughout our travels on this road, we will engage in rich conversations and equip you with useful tools on the journey as you figure out how to make important decisions about classes, majors, and how those choices can connect to a life of fulfilling work, service to others, continued learning, and joy
 Above class meets for the thirteen week session

	Topic: : Life Transitions for Differently Abled People								

People with varying degrees of exceptionality experience transitions in a variety of ways. This course examines transition at life's early stages (e.g., early childhood into kindergarten), middle stages (e.g., through adolescence), and into adulthood. Course participants will survey the extant research literature on transition and explore the relationship between transitioning and healthy outcomes

the medical field (knowledge and skill requirements), as well
as information on prerequisites and applying to medical
school. In addition, it will introduce concepts from medical
ethics, emotional intelligence, diversity equity and
inclusion, as well as financial considerations to orientate
students towards developing competencies in domains required
for effective patient care.
